

**Composition 3** was written in 2004 by Charles Rice Goff III. The tracks included on this CD are the first documentations, recorded in 2004. Each of these was created by a solo performer with multitrack recorder. Per the intentions of the author, each version exhibits a uniqueness based on the inclusion of a variety of random elements. Continuity among the versions is exhibited through a number of parameters that regulate these random elements.

The full score of **Composition 3** is included with the CD and is also available on the internet at:
